

## BLACK SPLITTER / S2 800

The Black Splitter S2 800 is designed to fit all models of excavators. The unique rotating threaded cone provides extremely efficient wood-splitting power for various timber types including hard, soft, straight, twisted, stumps and roots. The two piece chromium-steel cone with replaceable tip has a double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of timber. The cone can also be used to maneuver and position individual logs before and after splitting.

- unique rotating threaded cone providing extremely efficient log splitting power especially for firewood processing
- made for various timber types including hard, soft, straight, twisted, stumps and roots
- two piece chromium-steel cone with replaceable tip
- double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of logs and timber

Weight:	262–282 lb
Excavators:	1.5–6 MT
Cone:	<ul style="list-style-type: none"> <li>• chromium-steel</li> <li>• 200 mm (7.87") diameter x 12" long</li> <li>• double helical thread</li> <li>• 24 mm thread pitch</li> <li>• replaceable tip</li> </ul>
Motor Shaft:	<ul style="list-style-type: none"> <li>• 90 to 100 mm diameter</li> </ul>
