

BLACK SPLITTER / S2X 800 +

The Black Splitter S2X 800+ is designed to fit all models of excavators up to 31,000+/-lb. The unique rotating threaded cone provides extremely efficient wood-splitting power for various timber types including hard, soft, straight, twisted, stumps and roots. The two piece chromium-steel cone with replaceable tip has a double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of timber. The cone can also be used to maneuver and position individual logs before and after splitting.

- designed to fit all models of excavators up to 31,000+/- lb
- unique rotating threaded cone providing extremely efficient log splitting power of large logs and stumps
- made for various timber types including hard, soft, straight, twisted, stumps and roots
- two piece chromium-steel cone with replaceable tip
- double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of logs and timber

Weight:	334-354 lb
Excavators:	5-12 MT
Cone:	<ul style="list-style-type: none"> • chromium-steel • 245 mm (9.65") diameter x 12" long • double helical thread • 24 mm thread pitch • replaceable tip
Motor Shaft:	<ul style="list-style-type: none"> • 90 to 100 mm diameter

Motor Type:	Inlet Pressure PSI	Displacement CC	Max Torque	Leakage Oil Return	Oil Flow GPM
800	2610-5250*	801	2965+/-	Required	12.1-50.1

* recommended operating PSI: 3,500 - 5,000
